

# Autodesk

## Expertise & Solutions

27Global is at the forefront of enhancing and expanding the capabilities of Autodesk solutions for our clients. Our partnership with Autodesk symbolizes a fusion of top-tier expertise and cutting-edge technology, designed to unlock the full potential of Autodesk's offerings.

### Innovating Financial Services with Empowering Tech Solutions

In the ever-evolving landscape of financial services, 27Global stands as a beacon of innovation and reliability. We build specialized technology solutions designed to empower financial institutions and fintech providers, enabling them to navigate the complexities of the industry with confidence and efficiency.

## Expertise & Solutions

### Empowering Autodesk Solutions with Custom Integrations and Cloud Engineering

We specialize in creating tailored integrations that seamlessly blend Autodesk's powerful tools with your existing systems. Whether it's integrating with ERP systems or developing custom applications, our goal is to ensure a smooth, interconnected experience that optimizes your operational efficiency.

### Backup ACC to Azure, AWS, and More

27Global designs and builds custom backup, disaster recovery, and high availability solutions for Autodesk files so you can have confidence that your operations can continue in the event of an outage or cyberattack.

### Innovative Custom Application Development

We don't just integrate; we innovate. Our team of experts crafts custom applications tailored to your unique business needs, leveraging Autodesk's robust solutions. This bespoke development ensures that you're not just keeping up with the industry standards but setting them.

### Streamlined Processes, Seamless Migrations, and Reliable File Processing

From adding custom features to optimizing file processing, we ensure that Autodesk's solutions work harder and smarter for you. Understanding the importance of data integrity, our team provides expert file processing and migration services, ensuring a smooth transition with minimal disruption. We manage the complexities, allowing you to focus on what you do best.

### Data Engineering and Platforms Customized for Autodesk Data

Advanced data analytics, business intelligence (BI) tools, and AI/machine learning capabilities, all custom-built to work seamlessly with Autodesk data. This approach allows for deeper insights, improved decision-making, and a significant competitive edge. With 27Global, transform your Autodesk data into a strategic asset that drives innovation and growth.
